

INVERT ENDURO

ENDURO

Invert Enduro unlocks dirt bike confidence on your mountain bike. It brings the traction and smoothness of moto-style inverted forks to more riders with less cost and hassle. It's the kind of game-changing component that will have you unlocking the trails and features you've dreamed of checking off.

Highlights

- 160mm - 180mm travel
- Overbuilt, moto-inspired chassis built to handle the weight, power, and speed of modern e-MTB.
45mm upper tube, 38mm stanchion
- Dual axle compatibility
15mm or 20mm
- Thrives in steep, fast, rough, and high-speed terrain
- For long travel trail, enduro, bike park, and electric mountain bikes
